$R^2 = 0.98$
Mean weekly R (reconstructed data)
Mean weekly R (reported data)
E
$R^2 = 0.67$
Mean daily R (reconstructed data)
Mean daily R (reported data)
B
Weekly sliding R
Daily R
Squared error of R estimates
using reported and reconstructed data
Date
D
$R^2 = 0.999$
95% CrI width for weekly R (reconstructed data)
95% CrI width for weekly R (reported data)
E
$R^2 = 0.97$
95% CrI width for daily R (reconstructed data)
95% CrI width for daily R (reported data)
