
A
Reported
Reconstructed
Daily incidence by date of death
17 Sep 20
05 Apr 21
22 Oct 21
B
Weekly sliding R
Daily R
Squared error of R estimates using reported and reconstructed data
Date
C
Early
Mid
Late
Mean weekly R (reconstructed data)
Mean weekly R (reported data)
$R^2 = 0.98$
D
95% CrI width for weekly R (reconstructed data)
95% CrI width for weekly R (reported data)
$R^2 = 0.996$
E
Mean daily R (reconstructed data)
Mean daily R (reported data)
$R^2 = 0.81$
F
95% CrI width for daily R (reconstructed data)
95% CrI width for daily R (reported data)
$R^2 = 0.97$
